April 1, 2011 - June 30, 2011

7548 Standish Place Rockville, MD 20855 301-424-1730

Montgomery Community Television

Organizational Structure

PRODUCTION SERVICES

NEW ON-AIR PROMOS:

In the world of new promos for the station, MCM has produced a variety of new and creative station on-air promos. For Access.19, spots included a metro train going by and dragging along MCM's logo, and a sidewalk scene were the logo gets wiped on by a passing car. Perhaps the most exciting spot was one entitled "Roulette": a very visual spot that highlights the key features of the Access.19 channel, and plans are underway to expand this concept to be a full blow campaign. For the Montgomery Channel, MCM wanted to also create a visual look as well, utilizing a technique called 'tilt-shift' photography. This is a process where the imagery looks as if is time-lapsed but it also makes everything appear as if it were a miniature size.

In addition, MCM has kept the mission of celebrating diversity by creating promos that salute certain days or months. Examples of this can be seen in our Earth Day Salute, Asian Pacific Month (May) as well as Caribbean Heritage Month (June).

As mentioned in the last quarterly report, "Budget Bites", a series PSAs that asked County residents to let the nine Council members and County Executive know what residents think should be done with impending budget cuts around the county. This were completed and air successfully across the PEG network. Many thanks to Neil Greenberger at CCM for his editorial support on the campaign.

The Montgomery Jobs campaign was started last quarter and completed this quarter. Seven individual PSAs were produced to help people who are unemployed find jobs by providing them with great job finding tips. These spots will run thru the fall, thanks to sponsorships from Holy Cross Hospital and Abt Associates.

MCM expanded its work with Bruce Adam's "Pledge 25" campaign as the official media sponsor by putting together a PSA calling for volunteers to check out their web site and see were residents can go to join in the campaign. MCM has committed to the cause and will be doing much more work with Bruce and his team in the next quarter.

'Do and Go' continues to run smoothly....MCM produces this 30-event information bulletin board every week with the information coming from the Arts and Humanities Council of Montgomery County. In addition, several new "Coming Up Next" spots were created for new community access shows. Other promos included spots for the Valerie Ervin Roast, The Gandhi Brigade Youth Media Festival and the Silver Spring Blues Festival.

Finally, a PSA was produced promoting the World Elder Abuse Association. A tasteful call to action PSA was produced and aired throughout the PEG network.

THINK GREEN:

The face lift for THINK GREEN has been launched and is looking great! New graphics, new music, more professional voice over and a snapper look have all added to the production's on-air appeal.

PRODUCTION SERVICES CONTINUED...

NEW SHOWS:

THE MoCo SHOW is a pilot program hosted by Cheryl Kagan, and the production department got involved in the creation and production of a few other long form programs like the MCOL Special: the Valerie Ervin Roast, which was a one hour fundraiser for the Jubilee Association of Maryland and roast for County Council President Valerie Ervin.

THE GANDHI BRIGADE: JUST US YOUTH MEDIA FESTIVAL!: A half hour program showcasing the work of local youth with a focus on social change. MCM served a prime media partner with the Brigade, helping to promote entries to the competition portion of the festival in addition to creating interest and awareness of the event alongside the final production.

THE GAZETTE HEALTHY CHALLENGE KICK OFF AND FINALE: This is a half-hour program on the 7th Annual Gazette Healthy Challenge competition. The three teams picked this year are from Montgomery, Prince George's and Fairfax counties. The contestants will work together to get healthy through diet and exercise during this 12 week competition. In addition, MCM covered & produced 25 CEO'S YOU NEED TO KNOW: - a half hour program recognizing the region's top movers and shakers at an event hosted by the Gazette of Politics and Business.

This quarter also saw the premiere of the Takoma Park Folk Festival which will air throughout the summer with at least nine episodes.

NEW COUNTY WORK:

The Production Department supplies the County with production personnel every week for various county productions. In addition, MCM produces a 2-minute PEG package for the use in COUNTY REPORT THIS WEEK. MCM production staff continues to support the County in its coverage of the Council, which was very busy with a number of hearings during the FY '12 budget process. In June, the County Department of Recreation asked MCM to put a proposal together and develop ideas for a marketing campaign that would promote all the great activities that Montgomery County residents have at their disposal. The campaign is called, "We Are Montgomery". MCM has high hopes that the proposal will be accepted and production will get underway in July.

AWARDS:

Jon Sullivan received notice that he won a 2011 ACM award for Access Centers/Professional Promo category for his spot on the 2010 Maryland Governor's race. Congratulations Jon!

TRAINING AND VOLUNTEER SERVICES

New Programs and Projects

There were about 30 new projects started this quarter by MCM Volunteers, Presenters and the Production classes.

Classes and Workshops

Training had an Advanced Green Screen workshop this quarter in addition to the regular sets of classes. Training also included a new 12-week Studio Tech/Director class in the January lineup that was completed in June. The class was full with twelve students rotating through all positions in the Studio. Previously certified Directors used this class as an opportunity to get more practice directing programs. Three Access Producers volunteered to tape their shows as part of the class. This added twelve additional programs completed over and above their regular times.

Current Activities

The ACM conference and Hometown Video awards submission and judging is complete. MCM had one Volunteer production, FORWARD MOTION, producer/host Karen Allyn that received an award. There were many youth tours given of the studio for Cub Scouts, Boy Scouts, Girl Scouts and other groups. The kids had the opportunity to become TV stars and enjoyed watching themselves with the Green Screen effect.

Youth Workshops

TVS has been working on the Backpack Journalism workshop which was open to High School and Middle School students in the area. These workshops are done in accordance with the Peg Youth Grant of \$20,000 for FY '11. There will be three, two-week sessions held during the summer months. There are 45 students signed up for this class beginning July 5, and all the classes are at capacity. The grant allowed MCM to purchase 15 Bloggie HD cameras, 10 hard drives, plus other support materials and lunch for the students for this workshop. It is hoped that this activity will grow into a year-round initiative that will also result on on-air and web-based content.

Planned and Coming Up

Another MPV training class is planned in August for the taping of the parade at the Ag Fair. A connection with the Jewish Council for the Aging of Greater Washington's SeniorTech program has started, as TVS Manager Larry Merewitz met with the COO of the SeniorTech program to start the conversation about how MCM can work with JCA as a media training center for their classes focused on the 50+ age group. Additional conversations will happen during the summer to work out details.

PROGRAMMING

For both MCM operated cable channels (19 & 21), administrative, scheduling, and operational activities were performed daily for smooth playout of the channels for the Programming Quarter of March 28 through June 26.

Applications and schedules were implemented for over 120 approved Series programs from Montgomery County residents and organizations. Each Series application can ask for a different program to play each week for up to 13 different programs. Also extensively scheduled were several non-Series programs made by County residents and MCT itself. Dozens of requests for schedule changes from original instructions from County Resident Program Presenters and Members were implemented.

Several programs, series episodes, program and MCM promotional spots, thematic channel identifications, event calendars, and funding notices made by MCM (Production Department) were scheduled on both channels. Breaks between programs on ATMV channels were filled with video programming essentially eliminating the appearance of alpha/numeric bulletin board CG. In these breaks, several promotional and informational programs created by AMTV's Production Department and County Residents were used effectively. Also, the hours of locally supplied video programming on the channels were increased.

Several weekly timeslots on Channel 21 continued to be used for play of the PEG Network program series "County Report This Week". AMTV participates along with other PEG Network members to create this weekly news-like, ½ hour program.

The number of program air copies held in the Videotape Library was reduced by returning uncalled-for or no-longer-requested-to-be-scheduled program tapes and DVDs to their owners. It is necessary that air copies of programs be culled because of limited space and to avoid confusion allowing proper service to Public Access Users and operation of AMTV channels.

Scheduling continued of program specific promotional spots for "21 This Week", the weekly "Event Calendars" (with separate ones for channels 19 and 21), and several "Montgomery County on Location (MCOL)" short informational programs produced by MCT.

Information continued to be supplied for updating and extending the A-List Program Guide which appears on the COMCAST cable channels informing viewers of details of available programs on MCT operated channels.

COMMUNICATIONS AND DEVELOPMENT

In April, 2011, Montgomery Community Media successfully filled the Director of Communications and Development position. Anthony (Tony) Spearman-Leach joined MCM from Michigan's Charles H. Wright Museum where he was the Chief of Communications and also was directly responsible for development, retail and guest service operations. As an active Johns Hopkins University alumnus, he is pleased to return to Maryland and to become a resident of Montgomery County in late-July 2011.

Montgomery Community Media is pleased to be the recipient of a Google AdWords (In-Kind) grant valued at up to \$120,000 per annum in Google AdWords in-kind on-line advertising support and free use of many Google products. The award was announced on June 27, 2011. This grant will support the launch of MCM's new website and play a significant role in enhancing MCM's on-line outreach, awareness and service to what is already a robust website presence.

MCM's newly-formed Development Committee (formerly it had been an advisory group) held its inaugural meeting on June, 22, 2011. It is chaired by Beth Suarez, whom has extensive experience in development at PBS and is now at Catholic Charities USA. The Development Committee shall directly address and support the future sustainability of Montgomery Community Media through board engagement, strategies for individual giving, corporate support and corporations and foundations. Tony and Beth shall work together through the next fiscal year to expand this committee's membership and populate it with the necessary skills and talents to further build upon Montgomery Community Media's recent successes in this fiscal year.

TECHNICAL AND NETWORK SERVICES

Production Services

Production services were provided for weekly productions of "21 This Week" and "Montgomery Week in Review," as well as various community and client productions.

Production Facilitation

Over the quarter, Technical Support was provided for 137 Studio Productions totaling 838.75 hours of production time. This represents a sizable and dramatic increase in both total productions (40%), and total hours (44%) from the previous Quarter.

In addition to the normal load of productions, technical preparations for and execution of the **Jubilee Roast of Valerie Ervin** at the Silver Spring Civic Building (using MCM's Varto/VT-4 Mobile Production Studio) took place in May. Then in mid-June, Technical Staff provided support for the **Silver Spring Blues Festival** using the County MPV (Mobile Production Vehicle). Also in early April, staff oversaw the live to air satellite transmission of the **General Conference of The Church of Jesus Christ of Latter-day Saints**, and just a few

weeks later, in conjunction with Maryland Public Television, **The Chesapeake Bay Volunteer-A-Thon**.

Administration:

As with recent years, and with what has become a common theme, this quarter represented a busy time for Technical Services. Along with nearly continual Studio usage, over 5,000 hours of Field Camera usage, and more than 1,900 hours of editing suite usage, many of the channel improvement projects continued into and often through the Quarter.

Just before mid May Synergy Broadcast, the makers of MCM's Master Control System, arrived on site to complete the installation of the new master control output cards, the last official component of the MC upgrade. Despite some ongoing quirks, and configuration issues, the system is performing well.

Throughout the quarter work moved ahead on the ongoing channel enhancements that MCM has committed itself, and often it own monies to. In early April, the final components arrived for MCM's rebuild of its AudienceTV system. Audience TV is a computer based signage system that offers as one of its features the ability to handle Television channel "branding". Capital Networks, the maker of the AudienceTV system, was good enough to provide a free upgrade to the current software version, and staff was able to reuse the broadcast grade video processing card from the original systems, but extensive and highend rebuild work was still required. That hardware work is now completed and staff is working with both the AudienceTV software, and Synergy Broadcasts' support personnel to integrate the rebuilt systems into MCM's channel playout.

In addition to the above listed web improvements, and as part of MCM's current streaming video efforts, Staff has been working with the Granicus Company, our current streaming provider, to move to the next level in streaming technology. MCM has agreed to become a partner in the Granicus effort to modernize their internet offerings. To that end, MCM installed new prototype streaming servers and is currently running them simultaneously with its original streaming systems. These have been undergoing Granicus beta-testing for much of the quarter, and deployment is imminent. The new service is planned for implementation in early-to-mid FY12.

In consideration of the Granicus and Master Control developments, staff continues to investigate and plan, as much as possible to increase the speed and capacity of MCM's outside internet. Currently MCM has what would be considered in the modern world a "Slow Connection". To help alleviate this bottleneck, the County has recently agreed to assist MCM in two important ways. Firstly they have offered to provide MCM with access to the County's own intranet, and through that to the worldwide internet. Secondly, they have offered to purchase for MCM, a networking device that should allow the Company to access several other internet service providers at the same time. This ability would allow MCM to build speed and capacity into our own network systems, without the expense normally associated with such speed.

Although County Capital Replacement Funds had been zeroed for FY'11, MCM has continued to research, and plan, for improvements to its production and business

infrastructure. MCM hopes to move forward on upgrades to HD for several facilities areas in FY12. During the quarter the County tentatively signed on to those plans and we hope will provide the finances. The plan calls for HD conversion of Studio B, Master Control, and also to the professional staff's multi-camera field production abilities.

Following on MCMs reception and adoption of the new JVC GY-HM700 "ProHD" field cameras, Technical Services continues to monitor their performance and integration into the organizations workflow. The HM700 is the next generation field camera for use by both Access members and the professional staff. As mentioned in the Q3 report, the HM700s well exceeded any expectations of their use, and that pattern has continued. As in Q3, the HM700s (at 3,466 checkout hours / 288 hours weekly) easily exceeded 50% of all other camera checkouts combined, almost doubling that combined number.

ADMINISTRATION

Montgomery Community Media welcomed Tony Spearman-Leach as the Director of Development and Communications.

Jimmy Albert, Studio Supervisor received the Employee Recognition award for this quarter. Jimmy was nominated by a teammate for his positive attitude, outstanding customer service and his alignment with our company values.
